Application

for a perfect finish - free of swirls and holograms

The SHINEMASTER S8 and S21 Dual Action Orbital Polisher specifically designed for polishing car paint. It is powerful, easy to use and purposely designed for the serious enthusiast who wants that extra power but in a useable Random Orbital motion.

The Random Orbital or Dual Action motion of this polisher makes it ultra safe to use on all types of car paint when combined with good quality foam pads and polish. The SHINEMASTER offers superior correction of paint defects such as swirls and scratches, compared to hand polishing and most off-the-shelf polishers or sanders.

The new extremely powerful 900W motor combined with an 8mm (Type: S8) and 21mm (Type: S21) orbit gives effect and fast results to both serious enthusiasts and professional detailers.

Fitted with a trade quality 4m power cord and coming with a 24 month warranty, this is a professional machine that offers professional results.

The SHINEMASTER Polisher comes with:

- 1 × Color box with multi-language instruction/manual
- 1 × D-Handle
- 1 × Velcro backing plate 5/16"-24
- 1 × Spare carbon brush for the motor
